Press Release

Vi Dimensions wins Merlion Award 2018 - GOLD for Surveillance Category

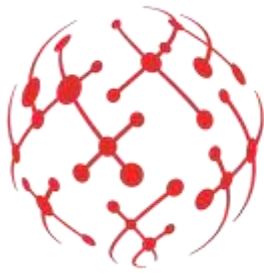

Singapore, 3 October 2018 – Vi Dimensions (ViD), one of Singapore’s leading Artificial Intelligence (AI) companies in security and surveillance, is pleased to announce that it has been awarded the Merlion Award 2018, GOLD for Surveillance Category.

The 11th Merlion Awards 2018 serve to honour outstanding concepts, new designs and products in the field of security. Underlining the importance of innovation, the Awards give well-deserving companies the accolades of excellence and pride of place to showcase their exemplary solutions and products at the annual Safety & Security Asia exhibition organized by Conference & Exhibition Management Services Pte Ltd (CEMS).

The Awards are divided into four categories: Surveillance, Access Control, Alarm Systems and Mobility Technology. Judged by a distinguished panel comprising of industry experts from academia and independent bodies, the Awards are recognition of the highest standards of product innovation excellence in the ASEAN region and beyond.

Gold Winner
Vi Dimensions Pte Ltd
For ARVAS (Abnormality Recognition
Video Analytics System)

VI DIMENSIONS

About Vi Dimensions

Vi Dimensions was founded in 2015 with the simple idea that video analytics can be done in a much better and efficient way with the goal to revolutionize safe city surveillance harnessing thousands of cameras.

Vi Dimension's vision and mission are to revolutionize the surveillance industry in terms of providing a better way of monitoring CCTV cameras to detect abnormal events and behaviours which could lead to improvements in safety and security throughout the world.
